

Appl. No. 10/665,663  
Atty. Docket No. 9075ML  
Amdt. dated August 5, 2005  
Customer No. 27752

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning at page 7, line 1 with the following amended paragraph:

Referring again to FIG. 1, a preferred film 10 uses an embossed, 0.7 mil (0.013 mm) thick HDPE film 12 containing 2500 ppm of  $\alpha$ -tocopherol (vitamin E). The film 12 is embossed to produce protrusions 14 and valleys 16. Adhesive 18 is preferably disposed at about 2 gsm in valleys 16.
